What Are the Benefits of Advertising on Popular Websites Like this Website?

Web advertising is a cost-effective and efficient way of marketing your business opportunities, products and services.

Web ads provide direct traffic to your online business with a simple click of a mouse. Placed in high traffic locations, web ads can easily increase your website traffic and brand awareness.

When you purchase internet advertising space for your ad, it is often for a flat rate for a specified amount of time. Flat rate internet ads have become popular because of some inherent problems in the pay-per-click system of internet advertising.

Instead of paying only when your pay-per-click ad is clicked on, flat rate ads are posted on a website page for a certain amount of time. How much you pay for a flat rate ad is determined by how long your ad is displayed on a website page - NOT by how many times your ad has been clicked by website visitors.

With flat rate internet ads, you can market to your desired customers for a reasonable amount of money. This makes it possible for small businesses to take advantage of internet marketing.

PLACE YOUR FLAT-RATE TEXT AD JUST LIKE THIS ONE:

Your 50-Word Text Ad with [Your Website Link](#)

Price for ONE (1) MONTH:
\$ 50.00

Price for THREE (3) MONTHS :
\$135.00

Advertiser Guidelines:

- ◆ All ads are subject to webmaster approval. If your ad is rejected for any reason, your payment will be promptly refunded.
- ◆ Ad rates are subject to change. However, once you have contracted for a specific advertising run, your rate is secure until that contract expires.
- ◆ Your ad will be located on the special "Marketplace Pages". Your ad does not rotate so it has the most exposure. Your ad will be visible 100% of the time.
- ◆ Doyle Chambers agrees to effectively encourage all website visitors to view all "Marketplace Pages" so that paid advertisers can get even exposure and good results with their advertising. However, results cannot be guaranteed.
- ◆ Advertising can be ordered at anytime. Your ad will be inserted into the Website "Marketplace Pages" within approximately 72 hours upon receipt of your payment and text ad.
- ◆ As an example: If you purchase advertising for ONE MONTH duration, and I receive your order on April 5th, then your ad will run approximately from April 5 to May 5 (depending upon when your ad is actually inserted into the web page).
- ◆ Concerning Text Ad with Website Link: Your Text Ad can contain no more than 50 words. Your Website URL counts as one word. Specific categories are not necessary.
- ◆ This site may undergo periodic cosmetic changes. The exact placement of your ad on the page may change whenever this occurs.
- ◆ Doyle Chambers is not responsible for, nor endorses any of the paid advertisements and/or companies. The integrity of my advertisers is assumed to be honest and reliable.
- ◆ You may change your text ad at any time (limited to changing only once per month).
- ◆ All ads must be paid in full before they will be placed on the site. Once an advertising order has been processed, there are no refunds for any reason.
