

Doyle Chambers' Business System Report #3: The Fisherman Knows...

You may want to print out this Report so you can easily read it.

Timing is critical with this and I don't want you to miss out.

NEW PEOPLE ARE JOINING DAILY THAT COULD BE PLACED DIRECTLY UNDER YOU.

Just the other day I was talking to Mary and Tom, who were interested in getting started in a GREAT LIFE business.

They asked me - *"How long will it take for us to really earn some income?"*

And I said - *"It depends on how hard you work using my system."*

Mary said - *"Well, my husband has decided he wants to do this GREAT LIFE business. And he's so excited about it...I'm really worried."*

And I said - **"What were you going to do without GREAT LIFE?"**

And she said - *"We were planning to go to Chiropractic School."*

"How long would that take you?" 4 Years.

"And how much would it cost you?" \$70,000.

And when your husband got out of school in 4 years, would he have earned any money during that period of time when he was in school? No, not a single penny.

And when he got out of school, would he have to buy equipment? Yes, \$50,000 worth of equipment.

And would there be any customers waiting in line to be part of his clientele? No, we'd have to go find those customers and we'd have to build our business - and then we could be respectable.

And I said - Mary, you can start your GREAT LIFE business right tonight. You can start it now!

Because by the time that 4 years is up, you're going to be earning lifetime streams of income. You're going to be retired. You're not going to have to go into debt for \$50,000 or a \$100,000 or more.

And you're not going to have to spend 4 years with zero income. You can start building your GREAT LIFE business right now with just a few hundred dollars.

That's my message to you. GREAT LIFE is one of the finest, quickest, easiest, safest, least expensive ways to build a lifetime stream of income that I have ever seen.

Please read this very special story...

An American business man was at the pier of a small coastal town in Texas when a small boat with just one fisherman docked. Inside the boat were several large fish. The businessman complimented the fisherman on the quality of his fish and asked how long it took to catch them.

The fisherman replied *"Only a little while."*

The American businessman, thinking that this was the way the fisherman made his living, then asked why he didn't stay out longer and catch more fish.

The fisherman said he had no need to stay out longer.

The American businessman was puzzled. He then asked, *"But what do you do with the rest of your time?"*

The fisherman said, *"I sleep late, read good books, play with my children, take a nap with my wife. Then I stroll into town each evening where I sip wine and play guitar with my friends. I have a very fulfilling life."*

The American businessman asked, "But what do you do for money?"

The fisherman said, *"Five years ago I built a large organization in a very wonderful network*

marketing company. I receive a substantial check every week from this amazing opportunity. **It's called residual income.**"

The egotistical businessman scoffed, "I am a Harvard MBA and could help you. You should spend more time fishing, and with the extra proceeds you could buy a bigger boat. With the proceeds from the bigger boat you could buy several boats, and eventually you would have a fleet of fishing boats."

Instead of selling your catch to middlemen you would sell directly to the processor, eventually opening your own cannery. You would control the product and distribution. You would need to leave this small coastal fishing village and move to Houston, then Los Angeles and eventually to New York City. Then, and only then, would you be able to properly run your expanding enterprise."

The fisherman asked, "But how long will this take?"

To which the businessman replied, "Only 15 to 20 years."

"But what then?"

The businessman laughed and said, "That's the best part. When the time is right you would announce an IPO and sell your stock to the public and become very rich. You would make millions."

"Millions? Then what?"

The dumbfounded businessman said, "Then you would retire, move to a small coastal fishing village where you would sleep late, read good books, play with your kids, take a nap with your wife, and stroll to the village in the evenings where you would sip wine and play guitar with your friends."

AN IMPORTANT LESSON LEARNED...

When you work hard and become successful with your job or traditional business - it brings you less and less time...even if it does bring you more money.

That is the "Success Trap". To earn more money, you must gain more responsibility – but you end up losing all your time.

However, as you build this business and become more successful – you won't have to work harder, you'll have more money and more free time.

BUT, there is something you must understand...

A real Network Marketing business is a very serious business equal to any traditional multi-million dollar business.

To start a traditional future multi-million dollar business -- it takes a lot of start-up capital, business and marketing know-how, and total dedication to overcome all the endless problems.

Virtually every day, serious business people go to banks to get loans for \$10,000, \$300,000 or more. They need this money so they can start or grow their traditional business.

With a real Network Marketing business, we don't have to do this. Our business expenses are much lower. A small start-up cost of a few hundred dollars with a small \$59 per month product purchase expense.

AND WHAT IS MOST IMPORTANT...

THIS NETWORK MARKETING BUSINESS WILL PRODUCE SUBSTANTIAL, LONG TERM MONEY CALLED RESIDUAL INCOME.

HOWEVER...DID YOU KNOW THAT 99% OF EVERY NETWORKER IN THE HISTORY OF THIS INDUSTRY HAS PICKED THE WRONG HORSE TO WIN THE RACE?

A dead horse MLM program is like a lemonade stand or yard sale. The vast majority of networkers are at most - earning small, short term money from low-level, ridiculous MLM programs. These people put great faith into dead horse MLM programs.

They continue doing this for years and years and continue failing. Their own judgement is flawed and they never learn. They keep beating a dead horse.

HOW CAN SOMEONE TRULY KNOW THE DIFFERENCE BETWEEN A REAL NETWORK MARKETING BUSINESS AND A DEAD HORSE PROGRAM?

Most people do not know...and may never know.

A successful Network Marketing Leader, through great experience, will carefully select a high-integrity Network Marketing business that is positioned in front of a huge growing trend where the next fortunes are coming from. They have already made a fortune for themselves and others who followed their advice.

WISE PEOPLE FOLLOW SUCCESSFUL PEOPLE WITH A PROVEN TRACK RECORD.

If you are not making a substantial residual income from Network Marketing, then do not rely on your own judgement. You must rely on the good judgement of people who are already successful.

You must follow a Network Marketing leader who has the experience and good horse picking skills that you lack.

When I finally got smart, I searched to find real Network Marketing Leaders with a proven track record of success.

They chose a real Network Marketing business and I followed them.

I LEARNED TO FOLLOW SUCCESSFUL PEOPLE.

Today - I have substantial residual income!

In a nutshell...To succeed in Network Marketing, you must follow a true leader who

has a proven sponsoring system, and a success track record of at least FIVE YEARS working in the Network Marketing industry.

Instead of searching for a program to join – look for a true Network Marketing Leader and follow them.

THAT'S THE SECRET!!!
