

VIDACELL™

Preserving Life... Because Life is Worth Living!

In today's modern life-style, our body's cells tend to degenerate faster than we age. Our cells are increasingly being bombarded and exposed to free radical damage from UV radiation, the air we breathe, the water we drink, and even the foods we eat. It is the never ending exposure to these types of toxins that create the free radicals responsible for creating chemical reactions within our body at cellular and molecular levels that steal our life away!

Now there is a solution! With VIDACELL™ a cellular food & bioavailable fuel, the cell can produce the needed antioxidants necessary to combat and eliminate free radicals.

Today, VIDACELL™ is regarded by many as the most powerful polysaccharide & peptide functional food available on the planet. **It is a unique, functional food that helps to reverse the "Cellular Aging Process" by providing the essential nutrients necessary for the protection, repair & revitalization of the body at a cellular level.**

VIDACELL™ has many benefits since it is providing nourishment to the body at a cellular level. Research has shown that if you provide your body with proper (optimal) nourishment at a cellular level, you can improve the body's overall functions and performance.

VIDACELL™ is readily assimilated and utilized by our body as a food, and works to provide the required energy (ATP) and nourishment at the cellular level; thus preventing the impairment of glucose/energy metabolism, resulting in the following health benefits:

- ❖ Enhances the Immune System
- ❖ Improved Overall Mental Vitality
- ❖ Assists Digestion and Metabolism
- ❖ Helps Increase Circulation to the Brain
- ❖ Balances Sleep Patterns
- ❖ Improves Vitality and Stamina
- ❖ Helps Fight Depression
- ❖ Maintains Blood Sugar Balance
- ❖ Helps in Increasing Attention Span
- ❖ Improves Bowel Movements
- ❖ Enhances Hormonal Function
- ❖ Helps Fight Emotional Stress
- ❖ Supports Respiratory Function
- ❖ Improves Skin Condition

VIDACELL™ contains a complete amino acid profile, complex carbohydrates, and cofactors necessary for life, all in a bio-available form for complete and immediate utilization by the body.

VIDACELL™ is hypoallergenic and contains no dairy, wheat, sugar, chemicals, fillers, binders, artificial colors, artificial flavors, additives, or preservatives and it contains no genetically modified organisms (non-GMO), and has no known side effects. VIDACELL™ is safe for chronically ill individuals, as well as individuals who have been diagnosed to be on the borderline of developing degenerative disease.

VIDACELL™ starts with all natural, native strains of specially selected fractions of rice grains grown in the Siam Valley of Thailand, one of the most fertile and unadulterated soils in the world. This is mainly a result of 100,000 years of natural, organic, mineral accumulation. It is then irrigated with nutrient rich spirulina-laden water for enhanced micronutrients.

After harvesting at the prime growth stage of life and highest nutrient content, it is then put through a proprietary process of technologically advanced bioactivation, nanonization and mechanical hydrolysis. This extracts vital nutrients, and reduces the particle size for enhanced absorption, to obtain the most bioavailable essential nutrients necessary for the vital cellular energy production process.

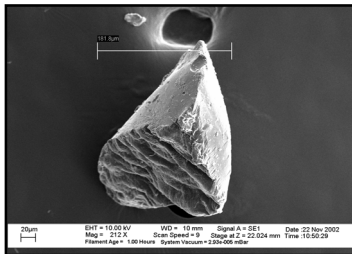

Fig. 1 Atypical Molecular Pyramid-like Structure, average size 200-300 microns with one-sided fiber-like surface

History:

The effectiveness of using rice for various ailments dates back many centuries, when ancient Thai folk medicine doctors helped their patients by giving them a liquid concoction containing natural herbs and native rice gruel. These ancient healers knew that the human body had a natural power to heal itself when it is fed the right quality of nutrients that the body could recognize as food for the production of cellular energy.

Today, many leading scientists, physicians and biochemists are re-discovering the health benefits of VIDACELL™.

How VIDACELL™ was Discovered

In the early 1990's a group of scientists, food technologists and doctors in Thailand were doing some research on instant cereal formulas that they were producing as baby foods. What the scientists were experimenting with, was the idea of adding unique native strains of select fractions of rice grains to the cereals, using a proprietary nanotechnology and mechanical hydrolysis process.

Not long after the scientists made the formula modifications, they began receiving regular feedback. The feedback the scientists received was very unusual, but incredible! Not only was the cereal nourishing the babies, but in many cases, a multitude of immediate health benefits were being reported. In some cases, even babies that had been diagnosed as chronically ill, were reporting positive results.

This constant feedback prompted the scientists to undertake further research projects to investigate the different health benefits in both the babies and adults that were now on the formula.

The research work involved the use of:

- Ancient Thai Folk Medicine and Bio-Food Engineering techniques and theories
- A proprietary nanotechnology and mechanical hydrolysis process resulting in high bioavailable nutrients preserved in a powder form
- Specially selected native rice grains harvested at the right age, cultivated in areas with natural alkaline soils, continuously enriched with natural organic matter and irrigated with nutrient rich spirulina-laden water for enhanced micronutrients.

Ultimately, this ongoing research led to the development of a unique and innovative "functional food" that we now know today as VIDACELL™. As a result of this incredible discovery, VIDACELL™ has literally opened the eyes of many leading scientists, physicians and biochemists to a new way of supplementing the body *at a cellular level*.

The ongoing research as to the benefits of VIDACELL™ has now come under the sponsorship of Thailand's National Innovation Agency (NIA), a department under the Ministry of Science and Technology, as a Product of Innovation in the "functional food" sector of Thailand. This prestigious relationship has provided GreatLife International with the ability to have access to the Thai government-owned research facilities for further research into the additional benefits of the VIDACELL™.

[See Video!](#)

I have been using VidaCell on 24 patients that had multiple medical problems including gastro-esophageal reflux, irritable bowel syndrome, gastritis, and diabetes. I have been quite satisfied with the response. My patients find VidaCell soothing, safe, and it appeared to quiet their gut inflammation. I feel this product enhances GI healing and improves digestion from the anecdotal responses I have received. ~

Norton L. Fishman, MD

Norton Fishman, MD, FACP, CNS

Internal Medicine & Geriatrics

Dr. Fishman has been practicing medicine for over 40 years. He received his medical degree from the University of Illinois Medical School and was trained in Internal

Medicine at the world-renowned Mayo Clinic in Rochester, Minnesota. Dr. Fishman is board certified in Internal Medicine and Geriatric Medicine. Having served in the US Air Force, he spent more than 25 years in private practice in Chicago prior to coming to the Washington area.

After spending many years in private practice as well as providing medical care in the nursing home settings, Dr. Fishman developed a passion for understanding and treating chronic illnesses and a keen interest in understanding successful aging. These interests led him to further studies in the areas of Functional, Integrative and Nutritional Medicine; as well as Anti-Aging/Longevity Medicine. He is a Certified Nutritional Specialist and a Diplomat in Anti-Aging/Longevity Medicine. He is a fellow of the American College of Physicians and a member of the American College for the Advancement of Medicine.

Dr. Fishman is a recognized expert and speaker in the fields of Integrative Medicine, Nutrition and Anti-Aging Medicine within the community and among his professional colleagues having been an invited speaker at the National Institutes of Health, local hospitals and organizations, the University of Virginia Medical School, and the University of Illinois Medical School.

Dr. Fishman is dedicated to healing and wellness, which means applying the leading-edge medical science and technology to his practice as well as remaining open to offering the best of the supportive traditional healing arts to his patients.

When you have health challenges you do everything you can to get back to normal.

VIDACELL is here to bring you to optimum health!

Try VIDACELL for Yourself!

I don't fully understand the science behind the Great Life product. But, I do know from personal experience that this product protects, repairs and renews the body at the core, at the cellular level of the body. It is a functional food that fights the cellular aging process, providing the nutrients that are necessary to repair, protect and renew the body. I love this product!!!
